

Foundation will receive substantial funds to develop and implement a policy for the broader impacts review criterion that will result in improving the effectiveness and impact of activities to broaden participation within STEM. Such a policy is long overdue. We spend billions of federal dollars for science advancements but have limited requirements for the institutions receiving these dollars to give back to the nation in terms of helping institutions or students beyond their walls improve their access to quality science.

I support the bill because it advances our nation in the STEM areas; however, I am disappointed that many of the provisions to broaden participation that were included in the House-passed version were absent from the final version. I promise to continue to work to ensure that all Americans have access to high quality STEM education and careers. I support H.R. 5116, the America COMPETES Act of 2010; this bill will enhance our present practices in science and our economic strength in the global marketplace.

#### PERSONAL EXPLANATION

#### HON. DEAN HELLER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 22, 2010*

Mr. HELLER. Madam Speaker, on rollcall No. 659, I was unavoidably detained. Had I been present, I would have voted "no."

#### TRIBUTE TO FERRARO MEDICAL ASSOCIATES, P.A.

#### HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 22, 2010*

Mr. PASCRELL. Madam Speaker, I would like to call to your attention the work of an outstanding medical practice Ferraro Medical Associates, P.A., which is celebrating its 65th Anniversary of dedicated service to its patients, and by extension, the greater community. It is only fitting that Ferraro Medical Associates, and its late founder Dr. Stephen P. Ferraro, be honored in this permanent record of the greatest democracy ever known, for the comfort and care that it has provided to so many Paterson families.

Dr. Stephen P. Ferraro was born in 1920 in Paterson, NJ to Angelo and Natalizia who emigrated from Sicily to the United States. They had four children, two of whom died untimely deaths leaving Stephen and Joseph. Stephen's parents ingrained in their sons the importance of education, and became successful themselves, owning multiple properties in Paterson.

Dr. Ferraro attended School No. 15 and graduated Eastside High School in 1937. In high school he was very athletic but music intrigued him most and he played the violin for the Eastside orchestra. After graduation he earned a bachelor's degree from Notre Dame University in 1941. Stephen developed a passion for medicine and flying which lasted a lifetime.

In 1946 Dr. Ferraro obtained his degree of Doctor of Medicine from Georgetown Univer-

sity Medical School. He graduated in the top of his class. He returned to Paterson to pursue his career. He did a rotating internship at St. Joseph's Hospital and Medical Center in Paterson. In 1947 he was certified and passed the State of New Jersey Board as Doctor in Medicine and Surgery. Dr. Ferraro then decided to join the United States Air Force University School of Medicine in Randolph, Texas and became a USAF Flight Surgeon, spending three years in Okinawa. In the Air Force he saw many in great need and he was determined to always be a "people doctor" and provide his service where the need was greatest.

By 1950, when he returned from spending four years at Boston City Hospital, becoming Chief Surgical Resident, he had met a nurse named Betty. He went to Columbia Presbyterian Hospital and became Chief Surgical Resident from 1954–1956. Betty followed him and worked alongside him as his operating room nurse. They later married at St. Anthony Church in Paterson and had six children—Stephen Jr., Natalie, Angelo, Lisa, Lucia and Barbara.

Dr. Ferraro never forgot the city he came from. In 1957 he became attending surgeon of St. Joseph's Hospital & Medical Center in Paterson. He soon decided to open his own practice at 414 Broadway. Betty was always by his side and was his nurse at the practice. Together they were the perfect "team." The office was on the first floor and their apartment was on the upper levels. He became the Co-Chief of Department of Surgery at Fairlawn Memorial Hospital, attending surgeon at Saddle Brook Hospital, Police Surgeon and City of Paterson physician, Medical Director of Nabisco Brands, Inc., assistant professor at Seton Hall University Department of Surgery and also became Medical Examiner for Federal Aviation-Class A, and USCIS Civil Surgeon. Dr. Ferraro was a distinguished and respected physician who with all his qualities provided the best to his patients and left a remarkable legacy to his children.

Dr. Ferraro's children admired their father for instilling the importance of education in them. When his children were very young he would always encourage them to read. They spent time with their father around the office. Dr. Ferraro was a great role model, allowing them to see the medical world in his office as one of the choices for their lives.

Lisa Ferraro followed her father's footsteps and graduated from Ross University Medical School. In 1984–1987 she completed her internship and residency in Internal Medicine at St. Joseph's Regional Medical Center in Paterson and immediately went to work with her father. Dr. Lisa Ferraro was Board Certified in Internal Medicine in 1987 and joined attending staff Internal Medicine at SJHMC.

She has worked as school physician for Public Schools Nos. 5, 8, 28 and Kilpatrick School. She was assistant Medical Director at Nabisco from 1987–1992 and has taught first year medical students from UMDNJ, as well as forth year foreign medical students. In 2000 she was appointed as Civil Surgeon for USCIS. In February 2010 she became Certified in Aesthetic Medicine.

Dr. Ferraro left a truly wonderful legacy in Paterson. In April 1996 Dr. Stephen and Dr. Lisa Ferraro registered the office as a corporation, Ferraro Medical Associates, P.A. Despite the challenges, the office still serves our com-

munity at 414 Broadway. Presently the practice provides medical care to approximately five hundred patients a month. It is estimated that close to half a million patients have passed through the doors at 414 Broadway.

Although Dr. Stephen P. Ferraro departed from this earth in 2002, he left a legacy of perseverance as well as a well recognized practice, which continues to thrive under the leadership of Dr. Lisa Ferraro. Her siblings are all successful professionals in their fields. Stephen P. Ferraro, Jr. M.D., is an orthopaedic surgeon in Redding, California, Angelo Ferraro, M.D., a cardiologist, Spokane, Washington, Lucia Ferraro, M.D., an anesthesiologist and Critical Care, Sherman Oaks, California, Natalia Ferraro is a homemaker and professional photographer and Barbara Tabano is a homemaker and operates a family business, The Sock Company, with her husband Jim.

The job of a United States Congressman involves much that is rewarding, yet nothing compares to recognizing the efforts of wonderful people in my District. Madam Speaker, I ask that you join all of the patients and friends of the Ferraro family, all those who have been helped throughout the years, and me in recognizing the outstanding contributions they have made to the community in Paterson and beyond.

#### FEDERAL GRANTS AND APPROPRIATIONS FOR LOCAL PROJECTS

#### HON. JOHN J. HALL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 22, 2010*

Mr. HALL of New York. Madam Speaker, I would like to submit the following:

I was proud to bring millions of federal dollars home to local taxpayers. New Yorkers pay more in federal taxes than New York receives in federal funding support, so I worked hard to bring additional dollars back home for local projects, thereby reducing the burden on local property taxpayers.

#### ORANGE COUNTY

Obtained \$19.6m from the American Recovery and Reinvestment Act for infrastructure upgrades and renovations at the U.S. Military Academy at West Point.

Obtained \$4.4m from the U.S. Department of Transportation for improved runway lighting and resurfacing at Stewart Airport, thereby increasing its air traffic capacity. The new lighting improves both energy efficiency and public safety during take offs and landings.

Obtained \$3.6m from the American Recovery and Reinvestment Act for repairs and renovations at the Stewart Air National Guard base.

Obtained over \$3.5m from the American Recovery and Reinvestment Act for energy efficiency improvements in Orange County.

Obtained \$2.3m from the Highland Falls-Fort Montgomery Central School District, including \$1.5m in federal impact aid and \$800,000 in federal funding to improve science and technology programs.

Obtained \$2m in American Recovery and Reinvestment Act funding to construct a new water filtration plant for the Village of Warwick.
